

CABLE ADDRESS "FERRACUTE, BRIDGETON" TELEPHONE CALL "No 34"

Bridgeton, New Jersey, U.S.A. 9-11 1895

Answering Yours of .....

Supt. U. S. Mint,  
Philadelphia,  
Pa.

Dear Sir:-

If entirely agreeable and convenient to yourself, will you kindly write us a brief letter, telling us what you think of the power presses of our make, which you have in use, mentioning perhaps about how many you have, approximately how long you have been running them, how well you like them, etc.

Should any of the older ones have given you any trouble, we hope you will base your expression of opinion as far as possible upon the kind we make now, rather than upon something which was not so far developed and improved.

We would like the privilege of photographing or otherwise copying such a letter as you may write us, with a view of showing it to prospective customers, should we so desire.

Hoping we are not troubling you too much, we are

Very truly yours,

Ferracute Machine Co.,

Per
